Hi Gary,

See the attachment. The company in question includes a determination from the old HMIWI rule, which a) is not the most recent iteration of HMIWI, and b) would be specific to how HMIWI is written in regards to pyrolysis.

I'll ask some folks about recent pyrolysis determinations.

Region 1, Boston, Massachusetts

Dear Ms. Lancey,

I would like to thank you for your Help. As per our phone conversation, I have include a brief description of the process and a request for determination for the pyrolytic portion of the process. I have also included a previous letter from the EPA on the determination of Pyrolysis. Though it doesn't exactly fit our situation, I hope you will find it helpful. I look forward to your response and if there is anything else we can help with, please don't hesitate to contact me.

Sincerely,
